QA Automation Engineer (Contract, Remote US) — Nimbus Retail

What you'll do
- Build end-to-end automation for storefront, cart and checkout with Playwright
- Own API test suites and run them in CI/CD (GitHub Actions)
- Partner with engineers to shift testing left

Must have
- 3+ years in test automation
- Playwright or Cypress, TypeScript/JavaScript, API testing, CI/CD

Nice to have
- Performance testing (k6), Shopify experience
